

U. Washington Tsunami Certificate Program
Course 2:
Tsunami Warning Systems

Exercise 4: Tsunami message dissemination

Purpose: The purpose of this exercise is for the participants to consider how messages are distributed within their country.

Instructions: Describe below using flow diagrams how warnings are distributed from the national tsunami contact or TWC in your country to the public. Shown below is one path used in the U.S. as an example.

TWC → Weather Forecast Office → Emergency Alert System → TV/Radio → Public
